## Claims

BBi puts claims at the very heart of our operation. We understand the difference that a well handled claim can make.

Our claims and broking staff sit side by side. They work together on strategy and communication to deliver a comprehensive claims service that we think is unrivalled.

We will listen to you at placement to ensure we understand your requirements and relationships. Whether that is with specific loss adjusters, builders, engineers or lawyers, we will give you regular feedback to ensure we are meeting your expectations.

Our experience suggests that each client's needs differ. We will tailor our claims service to your requirements and treat each claim individually. Putting the client at the heart of what we do and our philosophy of tripartite relationships is reflected in our claims service.
